

# Readers' Rides

Now there's a sight we don't see often enough. This beautiful Patrol 3.0 GL belongs to one Heinrich Stoltz, who confesses himself totally enchanted with the big Nissan and its capabilities. The image was captured on the Namaquala 4x4 Route, between Klein Pella and Pella, after exiting the notorious Road to Hell west of Kamgab. The snorkel was fitted by the owner, and the Patrol also boasts TJM shocks, custom progressive coils, a dual battery system, Gerber rock sliders, and protection plates for the engine and tranny. We'd say it's pretty much done.

## Win vehicle accessories worth R5 000!

Heinrich Stoltz has won himself a R5 000 voucher from Front Runner Vehicle Outfitters. Send us a photo of your vehicle in action, and you could be a winner, too. For details on how to enter, see overleaf.

After 12 issues we'll draw a Grand Winner from all the monthly winners, and they'll win a further R10 000 in vouchers. So send us your pics, and your vehicle could be fully fitted by the accessory specialist for your end-of-year adventure.
